## ***CAT-CHAT 7/30/07: Switchgear Maintenance and Cryocooler Maintenance,***

*John Quintana*

*APS Engineering Support Division*

*jpq@aps.anl.gov*

## Switchgear Maintenance

- Emails **will be** sent out to the resident users in the following sectors notifying them of upcoming switchgear maintenance. Both the Sector's LOM and Beamline will be shut down except as noted ( \* Beamline Only, \*\* LOM Only)
  - X8: S28, S29, S30, S31 and LOM 437 on **Saturday, 25 August 2007 (note, Shutdown starts on 24 August 2007)**
  - X9: S32, S33, S34, S35 and LOM 438 on **Saturday, 08 September 2007**
- Power will be **off** from **6:00 AM to 6:00 PM**.
- Reminder emails will continue to be sent closer to the maintenance date.
- Emails are sent to personnel listed as “resident users” in the APS CAT-HR Database.

## *Cryocooler Maintenance*

- The September shutdown begins on 24 August 2007.
- MOM group is very busy during shutdowns.
- If you are having your cryocooler serviced, please warm up your mono and have the pump available soon after the shutdown is over so that MOM group can collect the pump as its work schedule with the machine allows..

## CCWP Process

- Currently incorporating lessons learned from last startup into the CCWP process.
- Presentation on RSS Configuration Control and Startup Issues was given at monthly meeting (copies of slides in back or see ICMS APS\_1208960 if you have access).
  - Addressed the differences in responsibilities between various key people involved in RSS work.
  - Outlined lessons learned during last startup.
- Please see me if any questions or concerns.
