

ARGONNE NATIONAL LABORATORY

INTRA-LABORATORY MEMO

DATE: January 17, 2005

TO: Attendees

FROM: John Maclean

SUBJECT: BCDA Group Meeting – 12/06/04

ATTENDEES: Kurt Goetze, Peter Fuesz, Ron Sluiter, Ben-chin Cha, Joe Sullivan, David Kline, Tim Mooney, Carlotta Lukowski

ABSENT: John Maclean (Travel), Brian Tieman (?)

Ron:

- Will lead meeting in John's absence.
- Explained Beamline Orientation to be scheduled for all BCDA members.
- Reminded all to drive safely in construction zones.
- Upgrading Love controller to asyn.
- Upgrading motor to aysn R4.0.
- Investigating "last serial port" problem with MVME5100.

Pete:

- Making cables for sector #8.
- Starting a new run of motor transition boards.

Dave:

- Completed building synApps 5.0 against EPICS base R3.14.6.
- Recreated the "Machine-status-link devA32VmeConfig crashes on init" problem.

Tim:

- Continued work on synApps R5.1 release.
- Nick Reese suggested closer collaboration with APS and Diamond; possibly APS CVS repository access.
- Continued problems with IT resolving helpdesk write access.

Carlotta:

- Completed a Division project.
- Working on EPICS training schedule.
- Scheduled General Beamline/PSS Orientation to be given by Ray Monroe tomorrow.
- Indicated that she would investigate the e-mail some group members received regarding their time not being charged correctly.

Kurt:

- Created EPICS support for Queensgate piezo controller in sector #3.
- Worked with Steve Ross to run Quad EM with EPICS
- Installed the Quad EM in IOC1ID.

Joe:

- Configured temperature controller for sector #8.
- PV list SDDS is logging data. Learning SDDS interface.
- Planning for new motor controller with ethernet communication; ACSTec80
- Problem with SDDS and reverse gateway.

Ben-chin:

- Scanssee V3.4 working.
- Running scanssee at beamlines for users.
- 7IDD had problem printing from scanssee.
- Helped user at 2IDD to use wide viewer.
- New workstation at sector #8 had problem running scanssee - catcher not working for S1USERID.
